

QUALITY POLICY

The Company Quality Policy of Colour Anodising Ltd is that the quality of all processes provided by the Company will conform to our Customers needs and expectations whilst fulfilling the requirements of the International Standard and statutory law.

The reputation of the Company rests on the high quality of its processes and all staff shall be made aware of the Quality Assurance requirements so that they will give their full support to ensure that the standard is maintained as effectively and economically as possible.

Through Management Review Meetings the Directors and Senior Managers of the Company seek continuous improvement by regularly and systematically reviewing the Quality Assurance System and Methods with the ultimate aim of producing zero defects. The Company also establishes and monitors measurable objectives for improvement at all levels and functions of the organisation.

Mr J. M. Buckley is the designated Quality Manager and is directly responsible to the Managing Director for ensuring that this Quality System and supporting Procedures are maintained throughout the Company.

It is the responsibility of the Directors and Senior Managers to ensure that this Quality Policy is communicated to all employees and maintained at all levels within the Company.
